two years

Becoming Frontier

Becoming Frontier | Nonprofit

Enrich staff experiences

By helping every nonprofit worker and volunteer transform their daily job to serve and deliver more

Deliver impactful programs

By streamlining program delivery and modernising constituent experience

Engage supporters and funders

By reaching more people and enhancing relationships who those supporting the mission

Transform operations

By evolving and reinventing how nonprofits deliver mission-based work

Journey to the Frontier Nonprofit

Phase 1

Human with Assistant

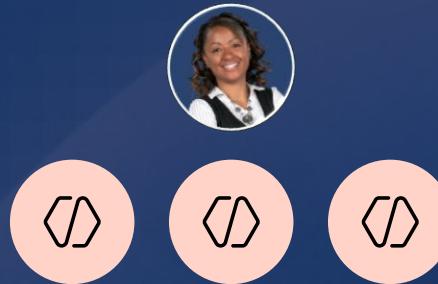

+

Every employee has an AI assistant that helps them work **better and faster**

Phase 2

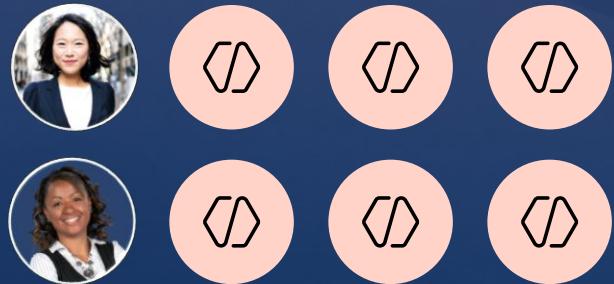

Human-led agents

Agents join team as “**digital colleagues**,” working on business processes under human direction

Phase 3

Human-led, agent operated

Humans set direction and agents run entire business processes and workflows, checking in as needed

This journey is not linear—many organisations operate in multiple phases simultaneously.
